

REGIONAL INFORMATION SHARING SYSTEMS (RISS) PROGRAM

WWW.RISS.NET

RISS is a nationwide program serving more than 11,150 criminal justice agencies and hundreds of thousands of law enforcement professionals. RISS consists of six regional centers and the RISS Technology Support Center. RISS focuses its efforts on the following three priorities.

INVESTIGATIVE CASE SUPPORT

- ▶ Develops analytical products and provides cryptocurrency fraud analysis
- ▶ Offers digital forensics and audio/video clarification services
- ▶ Loans specialized investigative equipment
- ▶ Provides research, intelligence, and investigative resources
- ▶ Helps train thousands of law enforcement professionals

SECURE INFORMATION AND INTELLIGENCE SHARING

- ▶ Operates the RISS Secure Cloud (RISSNET)—a secure platform for accessing and sharing hundreds of resources for law enforcement, including RISS-developed systems:
 - RISS Criminal Intelligence Database (RISSIntel)
 - RISS Property and Recovery Tracking System (RISSProp)
 - RISS Money Counter Network (MCN)
 - RISS Master Telephone Index (MTI)
 - RISS Drug Pricing Reference Guide

OFFICER SAFETY, DECONFLICTION, AND LAW ENFORCEMENT WELLNESS

- ▶ Operates the nationwide RISS Officer Safety Event Deconfliction System (RISSafe), which is accessible and monitored 24/7/365 by 29 RISSafe Watch Centers and available to all law enforcement at no cost
- ▶ Operates the RISS Officer Safety and Wellness Website, providing valuable information and tools

RISS supports law enforcement's efforts to address and solve all types of crimes, including violent crimes, human trafficking, targeted violence, domestic and international terrorism, drug trafficking, cryptocurrency fraud, identity theft, cybercrime, and other regional priorities and emerging threats.

MAKING A DIFFERENCE

3.4 MILLION

Events entered into RISSafe since inception

77.4 MILLION

Database records available via RISSNET

2.6 MILLION

Inquiries to RISS resources

1.8 MILLION

Hits to RISS resources

2.3 MILLION

Investigative support services (Such as analytical products, equipment loans, and training)

\$18.3 MILLION

In property that RISSProp has helped officers recover since inception

1.95 MILLION

Times users accessed RISS resources

Data was gathered during FY2025

RISS EXPANDED PARTNERSHIPS

IDENTIFYING LEADS AND SOLVING CASES

RISS has expanded its target deconfliction capabilities through the development of the **National Case Coordination System**, which enhances interagency collaboration and communication, improves investigations and helps solve crimes, generates investigative leads and assists in identifying emerging threats, and strengthens public safety.

RISS expanded its partnership with the Federal Bureau of Investigation (FBI) to integrate a query of the **FBI's National Data Exchange (N-DEx)** via RISSIntel, enabling the sharing of **1.9 billion records** and significantly enhancing law enforcement efforts while maximizing resources and time.

FY2027 FUNDING NEEDS

Demand for RISS services continues to grow as new crimes and emerging challenges impact law enforcement. The RISS funding appropriation of \$55 million would support current operations and enable RISS to further assist law enforcement in addressing violent crimes, protecting communities, and enhancing law enforcement operations. Examples of planned activities include the following:

- ▶ Expand **cryptocurrency fraud** analysis and support for victims of cryptocurrency scams and fraud.
- ▶ Increase support for organized retail crime investigations and initiatives.
- ▶ Replace and obtain new specialized investigative equipment and provide technical expertise and training on the latest investigative tools, technology, and services.
- ▶ **Develop, promote, and deliver training** and other educational resources in the areas of violent crime, gang activity, cryptocurrency fraud, drug trafficking, crimes against children, and more.
- ▶ Expand the development and distribution of RISS's School Action Response Plans to help protect American children.
- ▶ Develop and **deploy new versions of the RISS Mobile App**, including an Android version, enhancements to app accessible systems, and integration of new data sources to further coordinate law enforcement efforts and streamline operations.
- ▶ Onboard and train additional agencies and stakeholders to utilize RISSIntel, RISS MCN, RISSProp, and other resources to help maximize investigative and prosecutorial success.
- ▶ Enhance and expand RISSafe and the RISS Officer Safety and Wellness Website to help **avoid blue on blue situations**, support officer well-being, and maximize investigative case success.
- ▶ Collaborate with deconfliction partners to enable and **expand target deconfliction capabilities**.

NEW

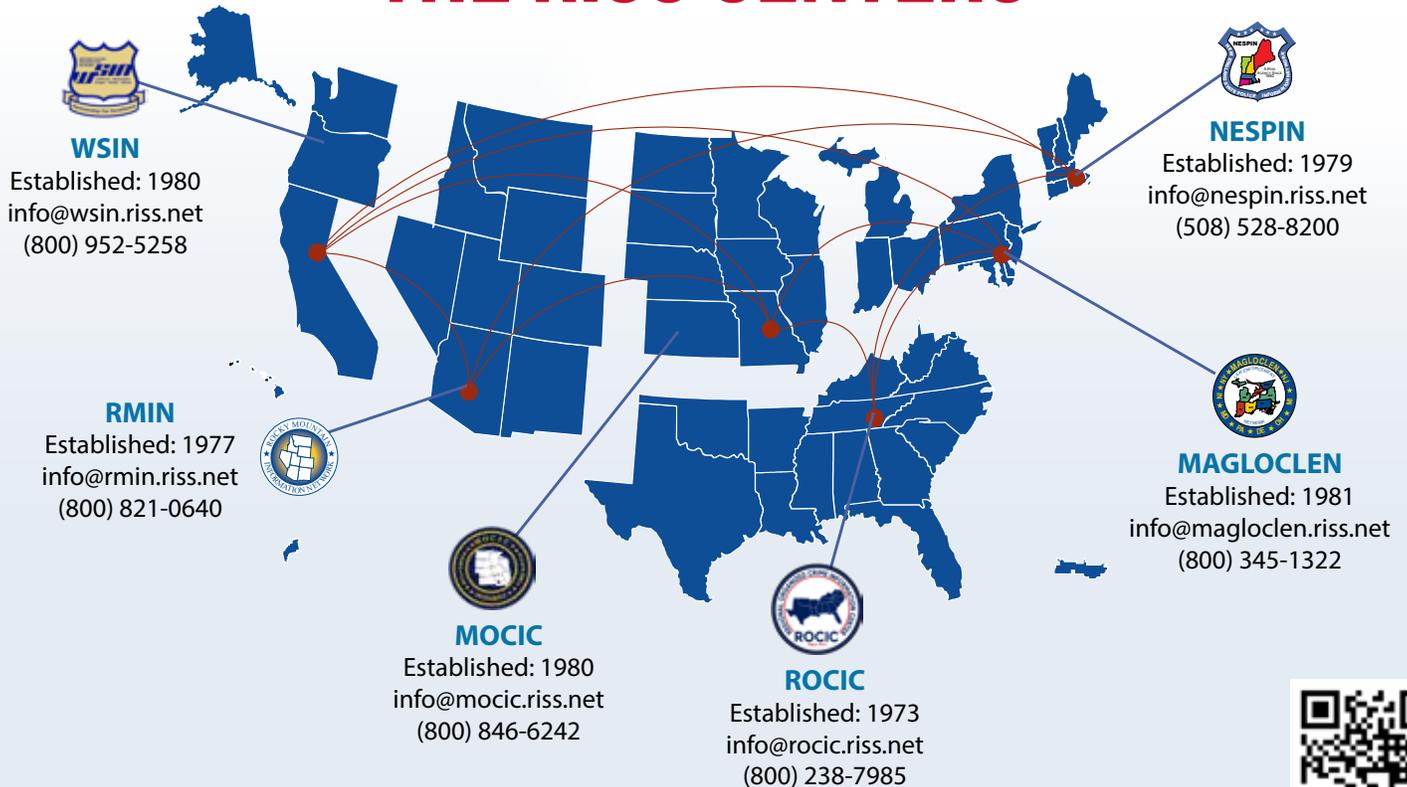

RISS MOBILE APP

The RISS Mobile App brings the secure information sharing and communication capabilities of RISSNET to the smartphone. Authorized RISSNET users in the field have the ability to search millions of available records, collaborate with other RISSNET users, and share information in a secure, intuitive mobile app on their smartphones.

THE RISS CENTERS
