**Secure Information and Intelligence Sharing**

- Supports the entire investigative process, including the prosecution and conviction of criminals.
- Facilitates and fosters communications among thousands of local, state, federal, and tribal law enforcement and public safety agencies.
- Strengthens hometown security and the nation's information sharing environment.
- Operates the RISS Secure Cloud (RISSNET)—a sensitive but unclassified (SBU) system that serves as the secure infrastructure for hundreds of state, regional, federal, and tribal systems and resources. Supports numerous federal agencies to meet secure information sharing mandates.
- Operates the RISS Criminal Intelligence Database (RISSIntel), which provides for real-time, online federated search of more than 50 state, regional, and federal partner systems.
- Operates the RISSLeads Investigative Website to enable multijurisdictional information sharing.
- Provides access to investigative databases, such as the RISS Property and Recovery Tracking System (RISSProp), the RISS Master Telephone Index (MTI), and the RISS Money Counter Project (MCP).

**OFFICER SAFETY DECONFLICTION AND RESOURCES**

- Operates the nationwide RISS Officer Safety Event Deconfliction System (RISSafe)—a system accessible and monitored on a 24/7/365 basis and available at no cost to all law enforcement agencies.
- More than **1.6 million operations** have been entered into RISSafe since its inception, resulting in **more than 425,500 identified conflicts**.
- Utilizes RISSafe Watch Centers to monitor events and notify officers of potential conflicts. There are **28 RISSafe Watch Centers**, 22 of which are operated by entities other than RISS.
- Enables officers to access RISSafe from their mobile devices via RISSafe Mobile.
- Provides target and investigative deconfliction through RISSIntel.
- Integrated with other event deconfliction systems and works in unison with partners to promote and educate users on the importance of using event deconfliction.
- Operates the RISS Officer Safety Website, which serves as a source for officer safety-related information and training. The RISS Officer Safety Website is available to sworn law enforcement officers, including registered users of the VALOR Web Portal.
- Provides officer safety training and develops and distributes educational materials.

**CRITICAL INVESTIGATIVE AND CASE SUPPORT**

- Develops **analytical products**, such as specialized charts and crime scene diagrams.
- Provides digital forensics and audio/video enhancement services.
- Researches intelligence and investigative resources, and provides comprehensive reports of findings to officers.
- Loans **specialized investigative equipment**, such as body-wire receivers and cameras.
- Provides one-on-one technical support to agencies through field services.
- Trains thousands of law enforcement professionals in areas such as investigative techniques, officer safety, and emerging crime problems.
- Provides confidential funds to support investigations.
- Develops **publications** and law enforcement-sensitive briefings.
- Distributes meaningful and actionable intelligence via secure e-mail and RISSNET.

FY2017 Highlights

- Developed, completed, and deployed the Online Registration, User Self-Service, and the new RISSNET Home Page.
- Deployed the secure federated search capability and expanded single sign-on capabilities.
- Deployed the new RISS Public Website.
- Expanded access to the Federal Bureau of Investigation’s (FBI) Law Enforcement National Data Exchange (N-DEx) to authorized RISSNET users via the Law Enforcement Enterprise Portal without an additional username or password.
- Expanded partnerships with the FBI, U.S. Customs and Border Patrol, and Nlets—The International Justice and Public Safety Network.
- Connected fusion center intelligence systems and other systems to RISSIntel, enabling them to securely share data among themselves and other entities.
- Participated on and led the SBU Technical Advisory Committee (STAC).

RISS Funding

The requested funding of $45 million for FY2019 supports the entire RISS Program, including the operation of the six RISS Centers and the RISS Technology Support Center. Additional funding will enable RISS to:

- Offer more information resources to additional users from member agencies and partner systems, and significantly expand the effective use of bidirectional federated search by connecting more systems to RISSIntel.
- Support RISSafe’s 24/7/365 operation, expand officer safety programs, support RISSafe Watch Centers across the country, and continue to promote event deconfliction.
- Enhance information sharing with existing partners, such as the National Virtual Pointer System and RISSIntel’s information partners, and expand deconfliction of this data with partners.
- Further bridge the gap by expanding existing partnerships with federal partners.
- Provide agencies having a need for an intelligence database with a cloud-based solution known as RISSIntel 4.0.
- Continue to enhance RISSNET’s cloud and supporting infrastructure.
- Expand some of RISS’s successful regional investigative data sources that are in demand nationwide, such as MTI and MCP.
- Architect additional scalable solutions on devices, such as mobile, laptop, and desktop computers, and provide scalable solutions for legacy applications.
- Integrate biometrics and incorporate advanced analytics into RISS systems.
